*"1 Man, 2 Minutes, 1 Door"
The UNIQUE...
Raised Panel Door Machine*

UNIQUE MACHINE & TOOL CO. has been producing the Raised Panel Door Machine for over 17 years with satisfied customers throughout the world! The Model 250 allows an operator to machine all parts for a complete cabinet door in less than 2 minutes without changing tooling.

The 250 was designed with both small and large manufacturers in mind. It is both versatile and economical for small custom shop use, yet efficient and durable for even the largest of factories.

Every Model 250 is set up and tested at our factory, and delivered with a complete sample door, ready for production.
